PRELIMINARY AMENDMENT

Sir:

Prior to examination on the merits and calculation of the filing fee, please amend the above-identified application as follows:

IN THE CLAIMS:

Please amend the claims as follows:

6. (Amended) The portable telephone set according to claim 3, wherein:

the radio circuit and the cable are connected in parallel via coils and capacitors; and power from the battery is supplied via the coil side to the radio circuit, and a radio signal received by either one of the antennas is transmitted via the capacitor side to the radio circuit.

7. (Amended) The portable telephone set according to claim 1, wherein the cable comprises a coaxial cable.

13. (Amended) The portable telephone set according to claim 9, wherein the operations of

2001P014480

internal antennas are stopped when the external antennas are connected to the first and second terminals.

Please add claims 14 - 21 as follows:

- - 14. (New) The portable telephone set according to claim 4, wherein:

the radio circuit and the cable are connected in parallel via coils and capacitors; and

power from the battery is supplied via the coil side to the radio circuit, and a radio signal received by either one of the antennas is transmitted via the capacitor side to the radio circuit.

15. (New) The portable telephone set according to claim 2, wherein the cable comprises a coaxial cable.

16. (New) The portable telephone set according to claim 3, wherein the cable comprises a coaxial cable.

17. (New) The portable telephone set according to claim 4, wherein the cable comprises a coaxial cable.

18. (New) The portable telephone set according to claim 5, wherein the cable comprises a coaxial cable.

2001P014480

19. (New) The portable telephone set according to claim 10, wherein the operations of internal antennas are stopped when the external antennas are connected to the first and second terminals.

20. (New) The portable telephone set according to claim 11, wherein the operations of internal antennas are stopped when the external antennas are connected to the first and second terminals.

21. (New) The portable telephone set according to claim 12, wherein the operations of internal antennas are stopped when the external antennas are connected to the first and second terminals. - -

REMARKS

Claims 6, 7 and 13 have been amended to delete multiple-dependency and claims 14 - 21 have been added accordingly.

Attached hereto is a marked-up version of the changes made to the claims by the current Amendment. The attached pages are captioned "**Version with markings to show changes made.**"

Early, favorable prosecution on the merits is respectfully requested.

Please charge any deficiencies in fees and credit any overpayment of fees to Attorney's Deposit Account No. 50-0481.

Respectfully submitted,

Sean M. McGinn

VERSION WITH MARKINGS TO SHOW CHANGES MADE

In the claims:

6. (Amended) The portable telephone set according to [one of claims 3 and 4] claim 3,
wherein:

the radio circuit and the cable are connected in parallel via coils and capacitors; and
power from the battery is supplied via the coil side to the radio circuit, and a radio
signal received by either one of the antennas is transmitted via the capacitor side to the radio
circuit.

7. (Amended) The portable telephone set according to [one of claims 1 to 5] claim 1,
wherein the cable [is] comprises a coaxial cable.

13. (Amended) The portable telephone set according to [one of claims 9 to 12] claim 9,
wherein the operations of internal antennas are stopped when the external antennas are
connected to the first and second terminals.
